Great calving ease, clean fronted, deep bodied with heavy muscle expression & great moderate Angus style. Good temperament, structure & feet & from one of the best angus cows ever! Y69. Colin inspected Compass in the US in 2016 & we have been delighted by his progeny. He is one of the best sires we have used in 30+ years. His sons were sale toppers last year & his 2yo daughters weaned heavy calves, are easy keeping & rejoined well. Use his sons with confidence to add kilos, carcase, doability & type, plus leave outstanding replacements to rebuild herds. Compass is the sire of Lots 1, 12, 16, 19, 25, 31 & 32.

Lotto is an Australian bred bull selected for his growth, carcase & maternal traits and was used over heifers without issue. Lotto ranks top 1% for all current EBV \$ Indexes & marbling. He has produced lovely soft bulls with great skin & toplines, & is a favorite with many Angus breeders targeting the feedlot market. He is the sire of lots 2, 27 & 40.

We love The Rock sons & daughters. They really combine it all in an easy calving, low birthwt, curve bending heavy growth package. Super quiet, great structure with bonus IMF & carcase value. Add real muscle & powerful type back into your angus herd, not just numbers & you will love TheRocks too. If you need a bull to tick all the boxes check out TheRock sons at Lots 3, 4 & 35.

Opportunity offers powerful Angus type, trait leading growth, carcase wt, yield & the added profit driver- feed efficiency. With only 40 calves in Australia & 70% in our herd over 3 seasons, with consistent calving ease & moderate birth wts of 33.5 kg, 34kg & 35 kg av each year. US data with 300+ progeny confirms this- his Aust EBVs predicting low calving ease & high birth wt should adjust with more progeny. We know our Opportunities have good calving ease & moderate birth wts, & happily recommend their use on cows, especially to powerup Bos Indicus or Euro X for a quality heavy efficient black hided product. Sire of Lots 5, 9 & 18.

316 progeny are calving ease with added growth, muscle, performance & style with great soundness & structure. Colin felt 316 was so good on inspection in the US in 2016 that he would become a Angus global star-which he now has. Very marketable versatile progeny & so easy doing- just what was needed the past few years. Add some real Angus breed type to your herd, his sons suit use over cows or heifers & several sons have gone on to be bigtime AI sires. 316 is the sire of Lots 7, 8, 13, 14, 15, 17, 23, 24, 29, 30 & 39.

Apache is developing cow maker status for herd rebuilding. Superior style, fertility, terrific muscle pattern, great hindquarter setup and bonus sleep easy calving for use over cows or heifers. A pedigree combining big time carcass & calving ease sires & superior maternal cowline. His progeny are all stamped peas in a pod thick well muscled strong topline types, very happy with our Apache progeny. Sire of Lots 28, 33, 34, 37, 38, 41 & 42.

Sandman is a terrific calving ease sire, siring grow fast progeny with terrific structure & feet added extreme marbling like his sire Prophet. Breeds big long bodied slick skinned smooth muscled progeny, very happy with his heifers breeding performance & have used sons in our stud herd. Use his sons with confidence on cows or heifers & to add marbling carcass value. Sire of Lot 20.

The last offering of progeny of our walking sire H215 (maternal brother to Carabar Docklands). H215 bred great calving ease long bodied well muscled and strong topped progeny that grow fast, have great feed efficiency & breed on well. Use with confidence on cows or heifers. His elite Aust pedigree shows in the quality of his sons on offer at Lots 10, 11 & 26.
